Mauritius would not be the same without the greatest love story of all times! We take you on a journey back to the time of Paul & Virginie and to the Pamplemousses Gardens, known worldwide for its large collection of indigenous and exotic plants, including the giant Victoria Amazonica water lilies and many species of palm trees. Of particular interest is the Talipot Palm which dies after a one and only flowering.

From Pamplemousses to Port-Louis, capital city full of contrasts and feisty suburbs. Without the administrative and military genius of Mahé Labourdonnais who opened the first sugar factory at Ville Bague, Mauritius would not have become what it is today. Discover the authentic facet of Port Louis, a pleasantly surprising and vivacious capital city... the main harbour buzzes from Monday to Friday as the business centre of the island. Streets lined by the royal palm trees and

old stone buildings are undisturbed by daily road traffic. Modern life and its buildings do not obliterate the local lifestyle between past and future, between traditions and modern technology. Shopping is planned at the Comptoir des Mascareignes in Pamplemousses and the Caudan Waterfront. The itinerary towards the South will enchant you. Discover the most atmospheric landscapes and natural charm of inland Mauritius. The sheer diversity of the scenery will remain engraved in your memory forever. From the Trou aux Cerfs, an extinct volcano which offers the most extensive view of Mauritius, to the colonial Domaine des Aubineaux and through Bois Chéri... the tea route. The Sacred Lake of Grand Bassin rests on the crater of another volcano and is the most ancient pilgrim destination of the Hindu population. Another photo-stop at the panoramic point of Black River Gorge. After a local lunch, an unforgettable stop on our excursion will be the waterfalls of Chamarel and its seven-coloured earth which bring enchantment to the spectacular view of nature. The succession of fragrances and the contrast of a multitude of colours enrich this outing which alternates between the past and the present.
